Post Hurricane Irene Press Release

September 19, 2011

Re: Mosquito Control

At their September 19th meeting, the Pamlico County Board of Commissioners voted to forego aerial spraying of mosquitoes, opting to increase ground spraying efforts. Commissioners increased the mosquito control budget by \$20,000 and authorized aggressive ground spraying of all areas experiencing mosquito counts at the numbers considered to be a health risk. Chemicals with effective extermination results will be purchased and used. Resources such as overtime, contracted labor, and necessary equipment were also authorized. Ground spraying started September 19th with efforts ramping up this week. Staff will spray along all named streets in the targeted spray areas but are not authorized to spray on private property. If you have any questions concerning these efforts, contact vector control personnel at (252) 745-5634.
